

## **Community**

Nagambie values the community and environment in which it operates in the State of Victoria and considers its relationships with local communities to be equally as important as the technical and commercial needs of the organisation.

Community consultation is vital to the success of our business and we aim to develop and maintain positive relations with local residents, businesses, governments and native title holders to ensure these groups will understand the benefits that exploration and mining activities bring to the State in which they live and we operate.

To this end, Nagambie will constantly canvas the views of the local communities in which they operate and inform the community of the company's progress and intended work plans.
